

SEMIS ET PLANTATIONS

CARTE DES PLANTATIONS

BAROMÈTRE DES PLANTES

POUR LA JOURNÉE

Beau temps et chaleur : la *nielle* penche la tête, le *tabac* ferme ses corolles, le *pavot* relève sa fleur, la *rose de Jérico* se contracte.

Chaleur accablante : la *nielle des champs* redresse la tête.

Orage : le *pissenlit* s'abrite sous ses feuilles.

Pluie : la *fleur de laitue* s'épanouit, le *souci* resserre ses pétales, les *pommes de pin* se resserrent avant la pluie, une *algue* séchée au soleil redevient molle.

Tempête : le *trèfle*, la *drape printanière* replient leurs feuilles.

INDUSTRIE

INJECTION PLASTIQUE & ARTICLES DE JARDIN

Z.A. Champgrand - 26270 LORIOL
